Profile

Computer Engineering student with knowledge in web development, basic hardware, and game development. Familiar with software engineering basics and building simple, responsive web applications. Passionate about learning new technologies, improving coding skills, and creating practical projects. Eager to grow through continuous practice, teamwork, and hands-on experience in real-world development.

Skills

Programming Languages:

- HTML, CSS, JAVASCRIPT, REACT, SQL, PYTHON, BASIC JAVA, C++

Hardware:

- Integrating a power supply into a PCB design
- Arduino, Sensors, Breadboard

Projects

- Hand Gestures Recognition using OpenCV and Mediapipe in Python and C++
- PCB Power Supply-designing owned pcb to create a power supply
- Vendo Machine using IC-based
- Baguio Tourist System with AI chatbot Systems
- My Portfolio Websites
- Game Development-Creating Mountains with checkpoints systems in roblox using roblox studio Luau languages

Education

UNIVERSITY OF BAGUIO
Bachelor of Science in Computer Engineering

Certificates

Computer System Servicing NCII - 2022
INTERMEDIATE JAVA - 2023
